Flowtouch®
Speedmaker

Made for iPod

Flowtouch Speedmaker 2D

The Flowtouch Speedmaker 2D is a revolutionary iOS-based (iPhone® or iPod touch®) scanner terminal developed for industrial use that is equipped with a 2D-imager for reading 1D-/2D-barcodes. A simple tilting motion (without operating buttons) activates the scanner for perfect “hands-free computing”. This entirely new approach to mobile working optimizes workflow, lowers the rate of errors and increases efficiency.

Flowtouch Speedmaker 2D

Weighing just 280 grams (approx. 10 oz.), the Flowtouch Speedmaker is worn on the arm and guarantees the user maximum freedom of movement. The Flowtouch Speedmaker is protected from dust and jet water (protection class IP65) and features massive impact protection. The Flowtouch Speedmaker holds the “Made for iPod” Apple® certificate.
